New Intersection Markings

Please exercise caution when approaching the intersection at Fulton and Stubbs Streets and note the new configuration. This was done to make the intersection more consistent with traffic control measures outside of the facility and the only change to traffic flow was changing a yield maneuver to a full stop maneuver for safety.

Safety Awareness Campaign Committee Seeking Volunteers

The Safety Awareness Campaign (SAC) will continue to be held twice yearly in May and October. The SAC Committee is seeking volunteers to assist with manning table and assisting attendees for April's campaign and will begin to seek input for October's campaign. Anyone interested in volunteering for the committee is welcome to attend the committee meetings held each Thursday, 10:00 AM in Building E-107, Room 101 Conference Room.

The Next Safety Awareness Campaign is May 18, 2016

Sustainable Acquisition Construction Category

Sustainable Acquisition or Green Purchasing is the purchasing of products which are **energy-efficient, water-efficient, biobased, environmentally preferable, non-ozone depleting**, and those made with **recycled or recovered materials**. In each issue we will be highlighting a category of products which are required to be purchased with recycled or recovered material content or with agricultural content. This month we are featuring **Construction Products**.
