Subject: Shoreline Enhancement and Restoration Project (DHR File No. 2018-3863) | e-Mail # 03512

Dear Ms. Shari Miller,

Thank you for requesting comments from the Department of Historic Resources on the referenced project. Based upon the documentation provided, it is our opinion that no historic properties will be affected by the proposed undertaking.

Implementation of the undertaking in accordance with the finding of No Historic Properties Affected as documented fulfills the Federal agency's responsibilities under Section 106 of the National Historic Preservation Act. If for any reason the undertaking is not or cannot be conducted as proposed in the finding, consultation under Section 106 must be reopened.

If you have any questions or if we may provide any further assistance at this time, please do not hesitate to contact me.

Sincerely,

Laura Lavernia, Architectural Historian
Division of Review and Compliance

Hi Shari,

Thank you for providing us with the documentation describing the proposed shoreline enhancement and restoration project at Wallops Island, Virginia. I've reviewed the information attached to your email requesting a determination from us regarding re-initiation of consultation and, based on the effect analysis from the previous consultation on the project, the information that you have provided regarding changes to the project description, and the fact that no new listed species or designated critical habitat overlap with the action area, it is not necessary to re-initiate the consultation on the August 3, 2012 Biological Opinion on the Wallops Flight Facility Shoreline Restoration and Infrastructure Protection Program (as amended, September 26, 2014). Please let me know if you have any questions.

Regards,
-Brian

Good afternoon, Brian,

Could you please tell me if NMFS had any comments or questions regarding our consultation letter for NASA's proposed shoreline restoration project?

Thank you.

Subject: Request for Concurrence

Dear Ms. Damon-Randall,

NASA is proposing to continue the Shoreline Restoration and Infrastructure Protection Program initiated in 2010. The current proposal includes renourishing the beach along the Wallops Island shoreline infrastructure protection area with sand recycled, or “backpassed”, from the north end of Wallops Island. Before the renourishment, NASA would construct a series of parallel nearshore breakwater structures that would reduce the intensity of wave action and slow sediment transport. Though obtaining fill material from the north end of Wallops Island is the preferred alternative for this nourishment event, the use of offshore sand

resources are still considered as alternatives for this and future nourishment events.

The attached letter is to request concurrence from your office under Section 7 of the Endangered Species Act (ESA) for the Shoreline Enhancement and Restoration Project. Based on the analysis that all effects of the proposed action will be insignificant and/or discountable, we have made the determination that the proposed activity may affect, but is not likely to adversely affect, any species listed as threatened or endangered by the National Marine Fisheries Service under the ESA of 1973, as amended. Our supporting analysis is provided in the attached Biological Evaluation.

We certify that we have used the best scientific and commercial data available to complete this analysis. We request your concurrence with this determination.

If you have any questions, please contact me at (757) 824-2327 or Shari.A.Miller@nasa.gov.

Hi Joel,

Thanks for contacting us with your request for consultation. Kim is on a detail and our current division chief is Jennifer Anderson. We have an email address specifically set up to receive consultation requests. Here it is: nmfs.gar.esa.section7@noaa.gov

Please let me know if you have any questions.

Regards,
-Brian

Dear Mr. Hopper,

I was trying to the email to Kim.Damon-Randall regarding consultation concerning the Wallops Island Beach Renourishment and Breakwater project for Shari Miller. However it keeps getting reflected back to me as undeliverable. Would you happen to have her email address?

Thank you,
Joel Mitchell
